PRICE 5 CENTS.

## THE CLASS OF NINETEEN FIFTEEN

### Registration and Events of the Week.

On Wednesday, Sept. 13, the class of 1915 reached Durham. After registering, they were called together by Pres. Gale of the Junior class and were started in the ways of college men with a few words of good advice.

#### The Registration.

Following is a list of the new four-year students. First is given the name, next the home address and lastly their Durham address, if given at the Registrar's office:

Engineering, chemical, electrical and mechanical:—Bartlett, A. E., Manchester; Hayes's; Bartlett, W. S., Manchester; Berry, James A., Greenland, Crescent; Bonardi, Jack, Lebanon, Schoonmaker's; Bowder, Raymond C., York Beach, Me.; Broginni, M. J., Milford, Schoonmaker's; Brown, O. C., Lebanon, Taylor's; Carter, R. W., East Cornish, Vt.; Cobleigh, Gerald F., Lebanon, Schoonmaker's; Corriveau, Paul E., Concord, Crescent; Davis Charles W., Concord, Crescent; Downing, E. H., Alton Bay, Edgerley's; Edmunds, Arthur L., Stratham; Emerson, Stuart B., Lebanon, Schoonmaker's; Farnum, H. L., Dover; Fernald, Brockett B., Rochester, Theta Chi House; Garside, John, Dover; Grady, John L., Dover; Grant, Arnold J., Dover, Edgerley's; Jenkins, E. K., Loudon, Dean Pettee's; Kiley, James E., Concord, Sawyer's; Langley, Lester S., Durham, Home; Murdock, Armond L., Dover; Parker, Walter F., Marlborough, Burnham's; Pattee, W. R., Goffstown, Crescent; Perry, Ralph M., Berlin, Rand's; Robinson, Lewis B., Pembroke, Rand's; Small, Fred W., Steep Falls, Me., Pettee Block; Studd, George T., Berlin, Tompkin's; Sweet, W. W., Gossville, Dean Pettee's; Thompson, John F., Tilton, Rand's; Watt, Will G., Durham, Pres. Gibbs's.

Agricultural:—Bent, Horace V., Durham, Pettee Block; Dearth, Raymond E., N. Haverhill, Littlehale's; Elliott, John S., Madbury, Putnam's; Fogg, Sherburn H., Durham, Home; Riford, L. S., Lakeport, Tompkin's; Rines, Clinton F., Portland, Me., Comings; Roberts, Charles E., Alton, Pettee Block; Sawyer, Clifford A., Atkinson, Rand's; Van Leesten, H., Paramaribo, D. G., Pettee Block; Watson, Earle E., Durham, Home.

Arts and Science:—Bronson, F. D., Lisbon, Comings; Came, Ralph E., Rochester, Pettee Block; Connelly, F. J., Newmarket; Crafts, L. W., Newfields; Dunham, A. H. W., Pembroke, Rands; Finley, Miss Nettie E. A., Dover; Hobbs, James F., N. Hampton, Pettee Block; Hoitt, Miss Alice J., Durham; Hopkins, Miss Anna M., Laconia; Houston Max E., Exeter; Kidder, Roland H., Marlborough, Crescent; McKone, Miss Esther G., Dover; Nash, Miss Marion, Dover; Lindquist, Henry, Manchester, Hayes's; Murphy, Miss May F., Somersworth; Plummer, Miss Helen, Dover; Reed, Clinton A., Manchester, Hayes's; Squires, W. H.,

Haverhill; Van Core, D. F., Colebrook, Edgerley's; Wyman, Eugene S., Haverhill, Mass.

Miss Vivian Hamel of Nashua is registered as a Junior and Clyde F. Joslyn of Northfield, Vt., as Sophomore. Joslyn rooms at Pettee Block.

#### The Minstrel Show.

On Wednesday evening the minstrel show was given in Burnham's barn. The Freshman actors showed much talent and the evening was an enjoyable one to the spectators if not to the Freshmen.

#### Posters.

In the early morning the Sophomores put up the Freshmen Posters. The Freshmen did their best to tear them down before 7 o'clock but, although they gave 1914 much trouble, they succeeded in destroying only about half of them.

#### The President's Address.

Thursday afternoon President Gibbs addressed the new students in the Chemical lecture room. He reminded them that they are now entering upon a life entirely different from what they have ever before experienced and a period that will be one of the most critical of their lives. He showed that college is vastly different from "prep" school; for, in "prep" school they had been accustomed to have people watch and care for them, but now they are no longer considered as boys and girls, but rather as young men and women. The college assumes that they are capable now of taking care of themselves.

Another important point, emphasized was the fact that a great many students fail to take college life as seriously as they should. While it is well that everyone should enjoy himself during his college course, college should not be regarded as a place simply for amusements, but as a place primarily for training oneself to solve life's problems. College should enable one to learn easily, cheaply, and quickly what it would take years to learn by experience.

The president next showed how the future of students largely depends upon the way in which they spend their college days. Take for example a fellow who has "flunked" out of his course and follow his future. He may perhaps get a fairly good position at first, but it very seldom happens that he ever rises higher. Not until then does he regret having spent his college days so foolishly.

Pres. Gibbs spoke of the habit, which a great many students are liable to form of wasting their time. Thousands of precious moments are often allowed to slip by without accomplishing anything worth while, and then when they are gone we are none the better for having spent them. While we study we should concentrate our minds entirely upon our books, and, when we play, we should concentrate our minds wholly upon our play. "Work while you work, and play while you play" is the motto which every student is advised to follow.

He closed his remarks with a plea for great effort upon our individual selves. "The amount of success," said he, "which each of you will attain in life will depend upon the amount of effort you put into it." As an athlete can not think of winning a race without training, neither can anyone expect to succeed in life without supreme effort

## WITH THE COLLEGE FACULTY

### Many Additions--Profs. Parsons and Slate to Leave.

There have been many additions to the faculty this year and there are two resignations. Following is given a brief sketch of each of the new men and also notices of the resignations of both Prof. Parsons and Mr. Slate.

#### Prof. J. H. Foster.

J. H. Foster, professor of forestry, was born in Waltham, Mass., in 1880. He entered Norwich University in 1889 graduating in 1903. The following year was spent in post graduate work at the Massachusetts Institute of Technology and this work was supplemented by a few months European study. He then taught science and English at the Lawrence Academy, Groton, Mass., in '04-'05, after which he entered the Yale University Forestry school from which he graduated in 1907. The following year was spent in re-search work as Forest Assistant in the United States Forestry service. Mr. Foster was then transferred to the office of State and Private Cooperation and in 1910 became assistant chief of this bureau. He will remain in the Forestry service without pay while he is here at New Hampshire except when actually employed in the service of that department.

#### F. E. McKone.

F. E. McKone, assistant in Mechanical Engineering was born in Newmarket in 1885 and at an early age removed to Dover, where he received his early education and graduated from the high school in '04. The following September he entered Dartmouth but was unable to return in '05 because of ill health and he entered New Hampshire in '06, graduating in '09. Since graduation he has been with the general electire company at Lynn, where he took the Alexander course of practical engineering.

#### Guy C. Smith.

Guy C. Smith was born in Michigan and lived for a number of years on a farm near Adrian. After leaving high school he taught for a year in a rural school and then entered the Michigan State Normal College at Ypsilanti. He graduated from this institution in 1906. During the year following Mr. Smith acted as principal of the high school at Evart, Mich., and from '07. '09 was superintendent of schools at Homer, Mich. In June, 1909 he entered the University of Chicago from which he received the degree of Bachelor of Philosophy in December 1910. Since that time he has completed one year of graduate work in the same institution. Mr. Smith's work at Chicago was chiefly Political Economy and he comes to New Hampshire as associate professor in that department.

#### Frederick W. Whitman.

Frederick W. Whitman, instructor of  
Continued on page 3

## FOOTBALL PRACTICE.

### Large Squad Out. The Schedule.

Football practice started Wednesday afternoon, the opening day of college, under the direction of Coach McCaa and Prof. David. For the first, only a few candidates appeared. During the rest of the week, the number was increased to 23. With the return of the old men Monday, the number further increased to about 35.

Of last season's varsity team, Captain Proud, end, is lost by graduation, Clark, '14, end, will enter Dartmouth, and "Noah" Sanborn, tackle, is unable to come out. For half backs, there are left Captain Lowd '12, and Jones '13, and Swasey, 2 yr. '12; fullbacks, Rear-don '14, and Haines 2 yr. '12; quarter-backs, Brackett, '13 and Twomey '13; center, Perkins, '12, guards, Morgan '12 and Davidson '12; tackle, Pettingill.

The season begins Saturday with a game with Bates in Durham. The schedule is as follows: Sept. 23—Bates at Durham; Sept. 30—Brown at Providence; Oct. 7—University of Maine at Orono; Oct. 14—Springfield Training School at Springfield; Oct. 21—Boston College at Durham; Oct. 28—Rhode Island at Durham; Nov. 4—Massachusetts "Aggies" at Manchester, N. H.

## FOOTBALL COACH.

Under the direction of Coach George McCaa, the football team bids fair to have a very successful season. With four years of varsity playing during his college course and with an experience of one season of coaching at Whitman college where he produced a team which lost but two games, he comes to New Hampshire, well equipped to turn out a winning team.

In his junior year at Lafayette, he captained the team which defeated Princeton and Brown and tied Pennsylvania. In his last year he acted as assistant coach. Walter Camp chose Coach McCaa as full back on his third All-America team in 1909 while many writers chose him as the foremost backfield man of the season.

He is credited with a record of 10 seconds for the hundred yard dash, and while in college was awarded a medal for being the best all-around athlete in the institution.

## PROF. PARSONS RESIGNS.

The college very much regrets the resignation of Prof. Charles L. Parsons from the head of the chemical department. Prof. Parsons assumed his position in 1893 when the college was still at Hanover and moving to Durham with the college has remained ever since. Prof. Parsons has a position with the United States Bureau of Mines as chief mineral chemist in charge of miscellaneous mineral technology. Although the position is much more lucrative than the past one, Mr. Parsons said that did not cause his resignation, but because of the Governor's veto of the bill for the engineering building and lack of room he feels that he has no chance to develop his work as he should and, therefore, takes a position allowing more development.

The class of 1914 has elected the following officers: W. H. L. Brackett, president; G. L. Ham, vice-president; Miss L. A. Cole, secretary; and C. J. Dresser, treasurer.

DURHAM, N. H., SEPT. 20, 1911.

### THE NEW HAMPSHIRE.

The "College Monthly" is dead, bound over and passes into the great beyond whence it can never come back. Its last years were ones of strife and difficulty, but the end came in quietness with all bills paid. The final year of its existence was one that will be forever remembered by those in touch with it as one that showed its possibilities with good business methods. Its success was little short of sensational.

However, that is gone, and we are with this issue starting a new era in New Hampshire College. This first issue of "The New Hampshire" is one that is making history, for it is the first weekly newspaper that has ever been issued by the students of the college. Many have asked as to the feasibility of the plan. It most certainly is feasible, if every New Hampshire student gets in and helps the editors by paying their annual subscription and by rendering aid in other ways as may be suggested. This paper is to be issued weekly (thirty four times during the year) for the same price that was paid for the "College Monthly" one dollar; it will be in your hands each Wednesday afternoon.

This is not a plea for subscriptions; no man with real college spirit needs a plea; it is rather, a statement of the good things that are to come. We naturally expect that every student is going to pay his subscription and do it now.

Here is another thing: It has been the habit of some satisfied young would-be-critics to sit back in their chairs, survey the contents of the college journal, and then to begin to pick apart the editorial, and other work in it. If you are one of this type we want your friends to tell us so that we can get your points. None of the staff claims to be perfect all, make mistakes, but let us know of your criticisms, and if they are fair, be assured that they will be well considered. In other words: Do not think that this sheet is not a part of you, it is, and we need and must have the hearty cooperation of all students. Furnish notes that are of interest by dropping them

into the box on the first floor of Thompson hall; find out if your high school is receiving a copy, and, if it is not, let us know; speak of and enlarge upon its good points, rather than hunt for its flaws; read every word of news material and editorial comment so that you may be posted on every happening around our alma mater.

Freshmen and entering two year men, the foregoing is, much of it, addressed to you for you must get the spirit of life here at once. It costs more than many of you supposed to get started in college, but every dollar invested in such things as "The New Hampshire" is a dollar for the advancement of the college. Some day you will be running this and the other activities of the college; prepare for that time now.

Members of the alumni, the editors have you always in mind as this sheet is prepared. We know that you desire to keep closely in touch with life here, and feel that in this weekly news sheet we have something that will be many times more efficient than the former monthly magazine. We ask that you, too, may realize how you may assist in the good work by obeying that impulse to enclose in an envelope a one dollar bill with your address, and mail it to the Business Manager. Give us also any word of criticism or of encouragement that you can, they all help.

We of the staff are doing our best for you.

"The New Hampshire" greets you! and we start, "The New Hampshire" with the feeling that we are at the beginning of a new epoch, vigorous, broad and promising, for this paper is bound to make the college better known to the world and more loved by its friends, "The New Hampshire" greets you!

Judging from the size of the '15 men chosen to hold the cane in the rush, foot ball material of the right kind is not lacking in the new class.

A conservative man might say a cane was raised, but it is more true that the cane was covered unceremoniously.

Who will go to sleep in chapel now?

### PROF. SLATE GOES TO U. OF M.

Professor Slate, the assistant in agronomy, has accepted a similar position at the University of Maine. In the few years Mr. Slate has been here he has made many friends and has won the respect of all who came in contact with him. Although we wish he did not feel it best for him to leave us, we all wish him the best of success in the years to come.

At the mass meeting held on Sept. 14 to arouse football enthusiasm Manager Berry, Captain Lowd, Coach Caa and Prof. E. J. David addressed the student body. H. C. Holden presided at the meeting.

# De Laval

The Cream Separator by  
which all others are judged

For more than thirty years the DE LAVAL has been acknowledged as the World's Standard.

You may hear it said of some separator that "It's as good as a DE LAVAL," or if some competing salesman wants to make his argument particularly strong he'll say "It's better than a DE LAVAL." The concern with a cheaply and poorly constructed machine says "Just as good as a DE LAVAL and costs less."

But everywhere the DE LAVAL is recognized by experienced creamerymen and dairymen and even by makers of would-be competing machines as the

**World's Standard**

The cream separator is more frequently used than any other machine on the farm, and for that reason, if for no other, only the very best should be purchased, and that's the DE LAVAL.

The more you come to know about cream separators the more certain you will be to buy a DE LAVAL.

## WITH COLLEGE FACULTY.

Concluded from page 1

Modern Languages and Latin, was born in Berthand, Colorado, May 12, 1889. When but a child he came to Boston and has lived there ever since. He prepared for college at the Boston English High school and entered Harvard in the fall of 1908 completing his college course in three years. He received scholarships each year as rewards for high rank and in 1910 President A. Lawrence Lowell presented a Detur to him because of good scholarship. At a special honor examination last year he was granted honors (magna cum laude) in the romance languages and literature, (French, Spanish, Italian.) During his college career he was a member of the English High School Alumni Association at Harvard, La Sociedad Eshonola and Circola Italiana.

**Charles C. Steck.**

Charles C. Steck, A. B., M. S., the assistant in mathematics is a graduate of Illinois. He was born in Whitan, DuPaye, Co., Ill., where the greater part of his life has been spent. He did his preparatory work at the Northwestern College, Naherville, Ill., and took college course at Wheton College, Ill. After two years spent as instructor in mathematics and science at the Genesis Collegiate Institute, Genesis, Ill., he entered the University of Chicago. Here he did graduate work in mathematics for two years. From there he comes to New Hampshire.

**Charles F. Whittemore.**

Charles F. Whittemore of Pembroke, N. H., instructor in chemistry, prepared for college at the Concord High School. He entered New Hampshire with the class of '11 and is at present studying for a master's degree. While in college he was very active being class treasurer, major of the cadet battalion, an associate member of the college monthly and editor-in-chief of the Granite, Manager of Varsity track, president of the chemical colloquium, and a vice president of the Y. M. C. A.

**Margaret DeMeritt.**

Miss Margaret DeMeritt, assistant in botany, prepared for college in Dover. She was graduated from New Hampshire in 1911 and is at present studying for a master's degree. During her junior and senior years she held a Valentine-Smith scholarship and was her class historian.

**Henry F. Judkins.**

Henry F. Judkins, assistant in dairying, comes from Kingston, N. H. He prepared for New Hampshire at Sanborn Seminary and was graduated from this institution in 1911. Judkins was an associate editor of the 1911 Granite and cheer leader during the seasons of '09-10 and '10-'11.

**George A. Perley.**

George Arthur Perley of Goffstown, the new assistant in Chemistry, prepared for New Hampshire at Goffstown High and graduated from here in 1908. The following two years were spent at Cornell, where he was assistant instructor in electro-chemistry. He received the degree of A. M., in 1910, and comes here from the Albany Lubricating Company of New York.

**Miss Florence Trimmer.**

Miss Florence Trimmer of Boston, who succeeds Miss Townsend as Registrar was graduated from Simmons last June and came immediately to her present position.

#### CLASS OF NINETEEN FIFTEEN.

Concluded from page 1

upon his own part. For it is the effort which he needs, to train himself to meet the problems of life.

#### Cane Rush.

Friday afternoon, for the first time since 1908 a freshman class won the annual cane rush from the sophomores. From the shot of the starter's pistol, the freshman appeared to be winners. Obtaining an advantage by superior weight at the start the freshman struck the cane first, and, at the final count, they were ahead, 26 to 17. The freshmen were led by Earl Watson of Durham while the sophomores followed Guy Ham of Wolfeboro, N. H., in the absence of President W. H. L. Brackett of their class.

The work of Murdock of the freshman class was noticeable. The official score is as follows:

1915:—Robinson, 2; Bartlett, 2; Fernald, 2; Kiley, 2; Watson, 2; Vance, 2; Hobbs, 2; Corveau, 2; Reed, 2; Parker, 1; Murdock, 1; Grant, 1; Bowden, 1; Garside, 1; Davis, 1; Lindquist, 1; Roberts, 1.

1914:—O'Connor, 2; Tarbell, 2; McCartney, 2; Sellers, 2; Goss, 2; Annis, 1; Ham, 1; Yaxis, 1; Story, 1; Jesseman, 1; Dustin, 1; Paulson, 1. Score: 1915—26; 1914—17. Referee, H. F. Judkins, '11. Timers: H. R. Tucker, '12, and P. C. Gale, '13. Scorers: H. R. Tucker, '12; and P. C. Gale, '13. Counters: H. C. Holden, '12, F. G. Fisher, '12, A. W. Jenness, '13, and R. Beach, '13.

#### Freshman Reception.

The annual Freshman Reception given under the auspices of the Y. M. C. A. was held at the gymnasium Saturday evening, after a reception in which, Pres. Tucker, Mrs. Gibbs, Mrs. Scott, Miss Donnelly and P. C. Jones received, Gilbert F. Lane, as chairman of the social committee, introduced the speakers as representing the various activities of college life.

President Gibbs spoke on keeping step. He said that many fellows fail in life because they fail to fall in line with the various conditions of life and he urged the new men to fall in step in their college course and to keep in step regardless of hindering circumstances.

Captain Lowd, and Coach David then spoke on football, W. E. Rogers for the college club, Prof. Jones for the Publicity Board, Catlin for the orchestra, Prof. Whorisky for the glee club, Captain Holden for the Athletic Association, P. C. Jones for "The New Hampshire",

H. R. Tucker for the New Hampshire Christian Association, Prof. Hewitt for the Alumni.

The grand march was then formed and led by Mrs. Gibbs and Pres. Tucker. Refreshments were served by the ladies of the faculty, whose assistance as always did much to make the affair a great success. There followed dancing to music furnished by the newly organized college orchestra.
